## **Oregon® Expands Internet Offering with ARI's EMPARTweb**

**Portland, Oregon, May 4, 2006** – The Oregon Cutting Systems Group of Blount, Inc. and ARI have launched the Oregon® E-Parts Catalog – an EMPARTweb Internet application. Oregon® Forestry, Harvester and Outdoor Equipment Parts electronic catalogs are now available for participating Oregon Distributor implementation.

This comprehensive web application offers Oregon dealers 24/7 parts look-up, price information, and ordering capability. EMPARTweb allows dealers to avoid extra phone calls, faxes, and double-entry, which add up to less errors and more efficiency.

Additional EMPARTweb benefits include wide-ranging business management compatibility, up-to-date parts and pricing information, and access to reference data such as brochures and features/benefits literature.

Oregon dealers should contact their authorized Oregon Distributor and ask if EMPARTweb is part of their marketing program.

**Oregon Cutting Systems Group:** Founded in 1947, the Oregon Cutting Systems Group of Blount, Inc. is a world leader in providing high quality, original equipment and replacement parts to the outdoor power equipment industry. Replacement products sold under the Oregon® brand name provide the industry with one of its most complete lines of parts including: saw chain, guide bars, sprockets and maintenance accessories for chainsaws; lawnmower blades, engine parts, belts, tires and service tools for mowers and other outdoor power equipment; and trimmer line, heads, and blades for trimmers and brushcutters. Oregon® replacement products are sold in more than 130 countries, and many leading manufacturers of outdoor power tools use parts made by Oregon Cutting Systems as original equipment. More information about the Oregon Cutting Systems Group and the Oregon® brand of quality replacement parts can be found at [www.oregonchain.com](http://www.oregonchain.com).
